## RESPONSIBLE?

**YES**, because you deliberately wanted the current financial system to be deregulated, dominated by huge banking groups, insurance companies and hedge funds that are more powerful than governments; The New York Stock Exchange created the Natural Assets Corporations without having to seek any permission from public political institutions. You have given away the power of the People.

## GUILTY?

**YES**, by preaching market efficiency, individual utilitarianism and the weakening of political regulation, you have contributed to erase the values of justice, equality and fraternity. You imposed the global governance of shareholders, a cynical system in which the interests of the richest prevail, leaving billions of impoverished human beings

## RESPONSIBLE?

**YES**, because you are complicit in deepening enormous social inequalities: the world's top 8 billionaires have as much wealth as 3.6 billion people (half of the world's poorest population!).

**YES**, because you promote a "free" world trade that is subservient to the interests of the interests of the "North", of a colossal indebtedness of impoverished countries by "loans" and "aids" from rich countries.

## GUILTY?

**YES**, because you encourage the growth of criminal finance by reducing taxes on wealth and legitimise tax evasion, which steals \$685 billion a year from the world community! By not outlawing tax havens, you are guilty of not helping 3.6 billion people without health protection, of forsaking 2.1 billion people without access to clean water and 4.2 billion people without sanitation; of not helping impoverished workers because their wages no longer allow them to live in dignity.
